

AQUA-AID

FWY-ISP™

Injectable Soil Penetrant for Fairways and Roughs

GENERAL INFORMATION

FWY-ISP is a cost effective formulation of AQUA-AID® soil wetting agents designed to enhance the penetration and infiltration of applied water through irrigation systems. **FWY-ISP** is designed to treat water repellent areas and large brown out areas in fairways and/or mounds, as well as, hard to drain areas. **FWY-ISP** can also be incorporated into nutrient mixes to allow for more efficient delivery of applied nutrients. **FWY-ISP** is compatible with all conventional irrigation systems or conventional ground spray equipment. Follow instructions and technical information from equipment manufacturers. **FWY-ISP** will not harm turfgrass when used according to label directions.

CONDITIONS OF SALE

WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

AQUA-AID GUARANTEE

Aqua-Aid comes with a 100% money back guarantee. If you are not satisfied with Aqua-Aid for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.

NET WEIGHT

CONTAINS NON-PLANT FOOD INGREDIENT:

Active Ingredient

14%	Non-ionic polyols
86%	Inert ingredients

DIRECTIONS FOR USE

Irrigation Injection: Inject **FWY-ISP** at 1 to 2 quarts per acre (3 to 5 L/ha) through the irrigation system monthly or as needed.

Fertigation: Mix proportionately to liquid nutrients to apply **FWY-ISP** at 1 to 2 quarts per acre (3 to 5 L/ha) per month or as needed.

Overseeding: Apply **FWY-ISP** at 2 quarts per acre (5 L/ha) one week prior to overseeding. Immediately follow overseeding with a second application at 2 quarts per acre (5 L/ha).

FWY-ISP is compatible with most mixes between pH 2 and pH 12. A jar test should be performed prior to mixing. DO NOT combine **FWY-ISP** in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.

HAZARD STATEMENT(S)

The product is not classified as hazardous. No known significant effects or critical hazards.

PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. In case of eye contact, flush eyes with water. If swallowed, give water or milk. If eye or skin irritation occurs or you feel unwell, get medical advice/attention.
